## FINANCIAL AND COMMERCIAL.

THURSDAY, April 17-6 P. M. The money market continues very easy. Call loans are quoted 5 a 6 per cent; good paper, 5 a 7; certificates of indebtedness, 97% a 1/2; seven-thirty Treasury notes, par. The banks are free We hear of a loan by a bank of \$90,000 en \$100,000 government sixes at 6 per cent. This is as it should be. A foreign merchant, now in this country, writes to express his great surprise at discovering from our columns that our banks exact a margin of ten per cent in lending on government securities. He says he thought we were a smarter people than to do business on such old fashioned principles. In London and Paris banks are glad to lend on government stocks with a margin of one per cent, and the consequence is that speculation and investment in these stocks are encouraged, and the banks keep their money constantly employed. Where the lender is attentive to his business, and the borrower responsible, a margin of 21/2 per cent is ample security for

loans on United States stocks.

There is very little doing in exchange. Bankers ask 112 a 1/4 for sterling and 5.06 for francs; but even at these reduced rates the inquiry for bills is slight. There are a few produce bills in market, which sell at 111% a %. Gold is lower; st sold at midday to-day at 1011/2.

The stock market was better again this morning, and there was an increased desire to buy. The severity with which the bears in Pacific Mail have been punished encourages the bulls in other leading stocks. If we should suddenly hear any very good news the stampede among the shorts would be exciting, and the losses of some of the more reckless among them severe. At the first bestd governments rose 1/2, Pacific Mail 1/2, To-ledo 1/2, Illinois Central 1/2, Erie 1/2, New York Central 1/2, Erie preferred 1/2, State stocks were likewise better. likewise better. The Chicago Tribune of Tuesday says:—
Exchange remains as last quoted—par a ½c. buying; ¿c. selling. These-prices have continued without encroachment for four or five weeks—a condition of things aimost unprecedented, at least for several years past, in this locality. Gold is nominal at 1½c. a 1½c. buying; 1¾c. a 2b. selling. There is no demand for gold—there is a great plenty in the market. The slight rise, when there is no demand, is attributable to the condition of the market in New York. Good paper, with the proper collaterals and duffings, is wanted, and 10 per cent is the nominal rate. Demand Treasury notes are rather scarce, the bankers holding all they can get at par.
